

BATTLE PET GALAXY

SAVE THE WORLD WITH YOUR PET AS THE MAIN CHARACTER!

Have you ever thought your pet could save the world? Now your pet can get in the game! Choose a helmet to fly through space avoiding the many types of obstacles and enemies that the evil Space Bunny throws at you. It could be asteroids, cats in spaceships, or even dogs with rocket packs!

Create characters for all your favorite pets using actual photos and show the world how heroic they are. Earn coins during the game to purchase some of the 20+ different helmets to outfit your character with. Share pictures of your characters with friends and family! Challenge your friends and see who can earn the highest score with the Game Center leaderboards.

Battle Pet Galaxy is available in the iTunes App Store for free with in-app purchases.

Please visit <http://www.battlepetgalaxy.com> for additional information, tips and tricks, and support. A game trailer is available at <https://www.youtube.com/watch?v=LxzqZpQ3-dk>.

Battle Pet Galaxy was developed by Kevin Kazmierczak, a software developer in Marlborough, MA that specializes in iOS and HTML/JS development. He is the creator of [Madbombz](#) and [FuelMate](#) in the app store as well as number of open source projects on [Github](#).
